

The background of the slide is a light gray gradient. It is decorated with numerous realistic water droplets of various sizes. Some droplets are at the top left, some are in the middle right, and others are at the bottom. They have highlights and shadows, giving them a three-dimensional appearance.

कविता

फूलको संसारमा
फूलन मन थियो ।
संसारको काठमा
हुन मन थियो ॥

[Icon of a book]

हाम्रो आखिले सधैं
राम्रा कुरा हैरै ।
सबै मिलेर खेल्ने
अनि सबै मिलेर खेल्ने ॥

हरीयो फल
नेपालको धन ।
मेरो यो
साहु मन ॥

[Icon of a plant]

पठिनेरवी राम्रो
गान्छे वनस्पति ।
मेरो मात्र होइन
हाम्रो वनस्पति ॥

राम्रो कुरा सुने
सधैं राम्रा कुरा खेल्ने ।
यो आखिलो ठेका
आफ्नै खले खेल्ने ॥

— Janaki Neupane

WATER

Water is very important for us because
Plant and animal all need water to stay
alive. Water don't have colour. We
should drink clean water. It help our
Kidneys. Water also help us go to bathroom
more easily.

If our urine is yellow we should drink
more water scientist that people take
in 1000 milliter water each day. Water
has many more uses. cooking, bathing,
watering plant, etc. we should not
dirty water because dirty make us
sick.

If we find a tap open around our
home or at school we close the
tap. Water is very important for
us.
